

Beauty
is an option!

Silver Ring Splint
C O M P A N Y

Wearing finger splints to enhance function may be a necessity, beauty is an option! These unique splints can be made even more beautiful with the addition of precious and semiprecious stones. Whether splints are used for hand-intensive work or merely for everyday tasks, SIRIS™ Splints will become a valued part of your life.

Stone Cuts Available

All models are available in 14k yellow gold and sterling silver, except as noted.

Splints are shown with a variety of genuine and laboratory-grown stones. Color, clarity and proportions of actual stones may vary from these illustrations.

Please be aware these are "special order" splints and require initial fit verification.
